

SUMMARY

Dimensioning and designing an energy storage system for the solar vehicle Solis - <i>E. G. Lefter, Adelina G. Andronache</i>	1
AI-driven power consumption analysis for a solar electric vehicle - <i>Alexandra Petric, I. S. Lungu</i>	7
Graphical Convolutional Networks Based Regenerative Brake Energy Prediction System for solar-powered electric vehicles - <i>I. S. Lungu</i>	11
Graph Neural Network Model for Predicting Electric Vehicle Battery Voltage - <i>Sabina Volcov, I. S. Lungu</i>	16
Regulator for solar thermal installations - <i>R. Copîndean, Rodica Holonec, F. Drăgan</i>	21
Solar tracker for a solar-electric vehicle - <i>K. Leborgne, J. Six, S. Breban</i>	25
Additional Security System for a Motorcycle - <i>D.M. Iudean, V. S. Sabau, R.A. Munteanu</i>	28
