

SUMMARY

Polymer Outdoor Insulators - <i>M.G. Danikas</i>	3
The knowledge Database of an Expert System for Diagnosis of Adjustable Speed Drivers - <i>Maria G. Ioannides</i>	11
Control of Advanced Manufacturing Systems - <i>A. Curaj and A.M. Stănescu</i>	21
Hall Generator as General Two-Port in Unidirectional Schematics <i>C. Şora, S. Dobre and D. Tonţ</i>	27
A New Track and Hold Amplifier for High Performance Data Acquisition Systems with the Wilkinson Recursive Subranging Method - <i>R.A. Munteanu, M.S. Munteanu, L.M. Velea and L. Vlădăreanu</i>	32
Interactive Automation System for Data Acquisition for Driving Technological Processes Type SAIAD - <i>L.M. Velea, R.A. Munteanu and L. Vlădăreanu</i>	41
Theoretical Studies Regarding Improvement of Hierarchical Structures Based on AC31 ABB PLC and Implementations in Top Technologies from Various Fields of Economy - <i>L.M. Velea, M.S. Munteanu and L. Vlădăreanu</i>	49
The use of Cross-Correlation to Detect and Estimate Periodic Signals in Noise <i>R. Munteanu and M. Bogdan</i>	57
The Synthesis of a Linear Phasemeter with Gilbert Circuit - <i>R. Copîndean, Gh. Todoran and Rodica Holonec</i>	61
Virtual Techniques for Measuring Electrical Parameters Using the Principle of Synchronous Detection - <i>R. Copîndean, Gh. Todoran and F. Drăgan</i>	65
Performances Investigation of High Efficiency DC-to-DC Converter Circuits with Commutation Energy Regeneration - <i>R. Marschalko</i>	73
