

TABLE OF CONTENTS

BME education and training harmonization initiatives in Europe <i>Nicolas Pallikarakis, Zoi Kolitsi (Greece)</i>	3
Developments in postgraduate teaching of medical physics and biomedical engineering: the sheffield experience <i>Patricia V. Lawford and Rod H. Smallwood (UK)</i>	8
Internet-based telemonitoring of intramyocardial electrograms <i>Helmut Hutten (Austria)</i>	11
Electrical impedance spectroscopy. The relationship between tissue structure and imposed electrical current patterns in pre-cancerous tissue <i>Brian H. Brown, John A. Tidy, Karen Boston, Anthony D. Blackett, Rod H. Smallwood (UK)</i>	16
The remote follow-up of patient with implanted pacemaker. A pilot experience in south of Italy <i>Alessandro Pepino (Italy)</i>	20
FORMDET A pattern recognition application <i>Arghir Suci, Dan Cosma, Mircea Vaida, Mihaela Ionescu (Romania)</i>	28
Advanced assisted diagnosis in medicine using image analysis <i>Mircea Vaida, Radu Ciupa, Dan Cosma, Titus Moldovan (Romania)</i>	33
Synthesis about diadynamic current-waveform generation techniques <i>Ioan Iov Incze, Maria Imecs (Romania)</i>	41
Research concerning the rehabilitation of the prehension function <i>Dan Mândru, Vistrian Mătiș, Olimpiu Tătar (Romania)</i>	46
The adaptive control of the temperature of oxigen partial pressure transducer <i>Radu Bălan, Marius Roman, Dan Cosma (Romania)</i>	52
Building the electrosurgery with the 80C552 microcontroller <i>Radu Bălan, Marius Roman, Vasile Marinca (Romania)</i>	56
Electrical detection of the acupuncture points <i>Nicolae-Marius Bârlea, Horațiu Sibianu, Radu V. Ciupa (Romania)</i>	59
Non-invasive method for quantifying the shape of the blood-velocity/time waveform <i>Radu V. Ciupa, Marius N. Roman, Dan I. Cosma, Dan Rafiroiu, Mihai Munteanu (Romania)</i>	62
New possibilities of preservation without salicylic components of the plum jams, through treatments in intense electric fields with ozone generating <i>Ilie Suarasan, Sorin Budu, Eugenia Suarasan, Roman Morar, Iuliu Munteanu, Anca Muresan, Maria Munteanu (Romania)</i>	67
The rehabilitation of the turned sour wine illness (micoderma acetty) using the ozone generating produced in intense electric field <i>Ilie Suarasan, Iuliu Munteanu, Eugenia Suarasan, Sorin Budu, Aurel Maier, Maria Munteanu, Roman Morar (Romania)</i>	71
About the structure of low aluminium PM Ti-Al alloys <i>V. Candea, S. Sfrangeu, C. Popa, Smaranda Lapusan, Teodora Marcu (Romania)</i>	75
Monitoring and data transmission of a patient's clinical status: ekg and temperature <i>Mihai Munteanu, Radu A. Munteanu, Radu Ciupa, Marius Roman (Romania)</i>	77
Picture archiving and communication systems -PACS <i>S. Sfrangeu, M. Covalcic, I. Șerb, Georgeta Stan (Romania)</i>	81

The simulation of the heart oscillating process <i>Vultur Alexandrina, Roman N. Marius (Romania)</i>	83
16-channel data acquisition system for intramyocardial electrograms (IEGM) <i>H. Hutten, W. Wimmer, P. Kastner (Austria)</i>	90
Functional magnetic resonance imaging (fMRI) of the auditory cortex <i>E. Formisano, A. Pepino, F. Di Salle, M. Bracale (Italy)</i>	96
Impedance pneumography: optimal placement of electrodes to be sensitive to lung impedivity <i>Brian Brown (UK), Niranjana Khambete (UK, India)</i>	100
Detection and classification system for water-borne micro-organisms using machine vision <i>H.L. Fernandez-Canque, S. Bota, S. Hintea, B. Beggs, E. Smith, H.V. Smith (UK, Romania)</i>	105
CT image segmentation graphic tools <i>Marius George Lingurar, Ioana Moisil (Romania)</i>	112
Electrical engineering in medical applications - an interdisciplinary undergraduate program <i>Alexandru Morega (Romania)</i>	120
Biomedical engineering and the mechatronic education <i>Vistrian Mătieș, Dan Mândru, Olimpiu Tătar (Romania)</i>	123
Internet and the web as educational tools <i>Ioana Moisil, Constantin Oprean, Daniel Volovici (Romania)</i>	129
Design of coils for magnetic neural stimulation. Efficiency criteria and technical solutions <i>Mihaela Morega (Romania)</i>	133
Application of sequential data algorithm to spectral estimation of eeg signal <i>Veaceslav Puscasu, Eugen Foca (Republic of Moldavia)</i>	139
Aspects of data acquisition in portable biotelemetry equipment <i>Radu Arsinte (Romania)</i>	144
Computational intelligence in medical diagnosis <i>Sorina Zahan (Romania)</i>	148
Computer-assisted myocardial ischemia diagnosis <i>Sorina Zahan, Christian Michael, Stefanos Nikolakeas (Romania, Greece)</i>	151
Risk factors patterns in computer-assisted myocardial ischemia diagnosis <i>Ruxandra Bogdan, Sorina Zahan, Claudia Cocan, Radu Capalleanu (Romania)</i>	155
Computer analysis of Doppler signal, taken from an ecograph for cardiac use <i>Nicolae Drăghiciu (Romania)</i>	159
Aspects regarding the design of a device for the detection and digital measurement of the cardiac rhythm <i>Nicolae Drăghiciu (Romania)</i>	163
Device for listening of the fetus heart beats with ultrasounds and pulse display <i>Nicolae Drăghiciu (Romania)</i>	168
Device for the detection and measurements of a cerebral impulse (Biological optimiser) <i>Nicolae Drăghiciu (Romania)</i>	171
