

SUMMARY

<u>Comportement des dispositifs de puissance sous l'effet de la température: Application au PT-IGBT -</u>	
<i>A. Hallouche</i>	181
<u>Solution électrique de lutte contre les insectes -</u>	
<i>B Youcef, S. Flazi, B. Zahafi</i>	187
<u>Commande en vitesse par mode de glissement d'un moteur asynchrone avec limitation du courant par poursuite d'une surface de commutation -</u>	
<i>B. Dehiba, A. Meroufel, A. Bendaoud, M.B. Benabdellah</i>	194
<u>Dynamic Performance Analysis of an HVDC Link with a CCC-Inverter Feeding a Very Weak AC System -</u>	
<i>M. Khatir, S.A. Zidi, M.K. Fellah</i>	201
<u>The Simulation of Conduction and Electrical Characterization in the Metal/GaN(n)/GaAs(n+) Structures -</u>	
<i>A. Joti, Z. Benamara, S. Benykref, B. Gruzza</i>	208
<u>Informatic System of Interactive Training for Virtual Laboratory Type Applications (I). L1 - The Study of Temperature Transducers Using the FieldPoint Module -</u>	
<i>C. Donciu, Oana Costea</i>	213
<u>Informatic System of Interactive Training for Virtual Laboratory Type Applications (I). L2 – Ferrite Magnetic Characterization -</u>	
<i>M. Temneanu, C. Donciu, C. Cristian</i>	218
<u>Describing Function Analysis of Voltage Source Resonant Inverter with Pulse Amplitude Modulation -</u>	
<i>A. Kelemen, N. Kutasi</i>	223

<u>Cooling Water Temperature Control System for Installations at a Chemical Plant -</u> <i>A. Gligor, A. Morar</i>	230
<u>Catia V5. New Methods of Design and Manufacturing of Violin Top Plate -</u> <i>L. Grama, A. Morar, C. Vlasiu</i>	236
<u>The $\pm\alpha$ Phase Shift Filter Combination between the Fourier Transform and the Hilbert Transform -</u> <i>G. Todoran</i>	240
