

SUMMARY

<u>Sliding Mode Linearization Control of Induction Motor Using a Sliding Mode Flux Observer</u> - <i>H. Benderradji, A. Makouf</i>	85
<u>Impact of DGs on Reconfiguration of Unbalanced Radial Distribution Systems</u> - <i>J.B.V. Subrahmanyam, C. Radhakrishna</i>	92
<u>Résolution de dispatching économique par la méthode de distribution par paquet</u> - <i>F. Benhamida, A. Bendaoued, Y. Ramdani</i>	99
<u>Enhancement of Power Quality by Using Power Electronic Equipment</u> - <i>C. Benachaiba, M.L. Doumbia</i>	104
<u>DSP-Based Real-Time Control of a Two Phase Hybrid Stepping Motor</u> - <i>M.S. Zaky, E.M. Ismaeil, M.M. Khater</i>	109
<u>Simulation of the Local Model Reference Adaptive Control of the Robotic Arm with D.C. Motor Drive</u> - <i>S.E. Oltean, A. Morar</i>	114
<u>Using Hierarchically Structured IEC 61499 Applications for Modeling Holonic Control Systems</u> - <i>V. Vlad, A. Graur, Cristina E. Turcu, C. Filote</i>	119
<u>Study Regarding Knitting Parameters in 3D Textiles Shields Implementation</u> - <i>A.S. Ardeleanu, A. Verejan, C. Donciu</i>	128
<u>Current Issues Regarding the Use of Li-ion Batteries for Automotive Power Applications</u> - <i>Adriana Traistaru, I. Sora</i>	132

<u>Constant-Frequency Constrained Optimal Direct Power Control of Voltage-Source PWM Rectifiers -</u>	
<i>N. Kutasi, Katalin György, A. Kelemen</i>	138
<u>Electronic Circuit Board Design Integration -</u>	
<i>L. Man</i>	144
<u>Matlab/Simulink/Sim-Power-Systems Model for a PWM AC-to-DC Converter with Line Conditioning Capabilities -</u>	
<i>R. Paku, R. Marschalko</i>	152
