

# SUMMARY

<a href="#"><u>Amélioration de l'influence des variations paramétriques sur les performances de l'UPFC -</u></a> <i>B. Larouci, L. Benasla, A. Tahri, M. Rahli</i> .....	187
<a href="#"><u>Résolution de DC power flow par le langage graphique LabVIEW -</u></a> <i>S. Souag, F. Benhamida</i> .....	192
<a href="#"><u>Accurate Fault Location Algorithm on Power Transmission Lines with Use of Two-end Unsynchronized Measurements -</u></a> <i>M. Dine, H. Sayah, T. Bouthiba</i> .....	199
<a href="#"><u>Mobile Content on 3G Platforms: A Case Study of the Business World -</u></a> <i>S.S. Olokede, J.O. Oni, A.T. Akinyemi, M.B. Olajide</i> .....	205
<a href="#"><u>Application de la commande robuste <math>H_{\infty}</math> dans le contrôle automatique d'excitation des générateurs synchrones puissants (application sous GUI/MATLAB) -</u></a> <i>D.E. Ghouraf, A. Nacéri</i> .....	211
<a href="#"><u>Maintenance Optimization for Equipment of Power Distribution System Based on FMECA Method -</u></a> <i>B. Yssaad, M. Khiat, A. Chaker</i> .....	218
<a href="#"><u>Study of Utilization of Inductive Heating System in the Joing of Cleating Processes at a Frequency of 500 Hz -</u></a> <i>Claudia Olimpia Staşac, D.A. Hoble</i> .....	224
<a href="#"><u>Acceleration Signal Calibration and Filtering for Determining Wheel Slip of an Electric Vehicle Prototype -</u></a> <i>D. Szocs, A. Fenesan, T. Pana</i> .....	228

<a href="#"><u>LED Drive Technology Based on CFL Ballast Topology -</u></a> <i>P.D. Teodosescu, M. Bojan, Ioana Cornelia Vese, R. Marschalko .....</i>	235
<a href="#"><u>Remarks on Optimal Design of Magnetic Stimulating Coils Used in Magnetotherapy -</u></a> <i>Anca Nicu, Laura Darabant, R. Ciupa, B. Micu .....</i>	242
<a href="#"><u>Vibrations Influence on the MS-1 N-8811 Permanent Magnet Synchronous Motors Reliability -</u></a> <i>D. Iudean, R. Munteanu jr. ....</i>	246
<a href="#"><u>Equivalence of Hexa-Phase Asymmetrical System with Two Three-Phase Symmetric Subsystems -</u></a> <i>Gh. Todoran .....</i>	251
